LIFE BY THE SEA

Palm Central Private Residences is a new expression of resort-style living on Palm Jebel Ali, a destination that redefines what it means to come home to calm.

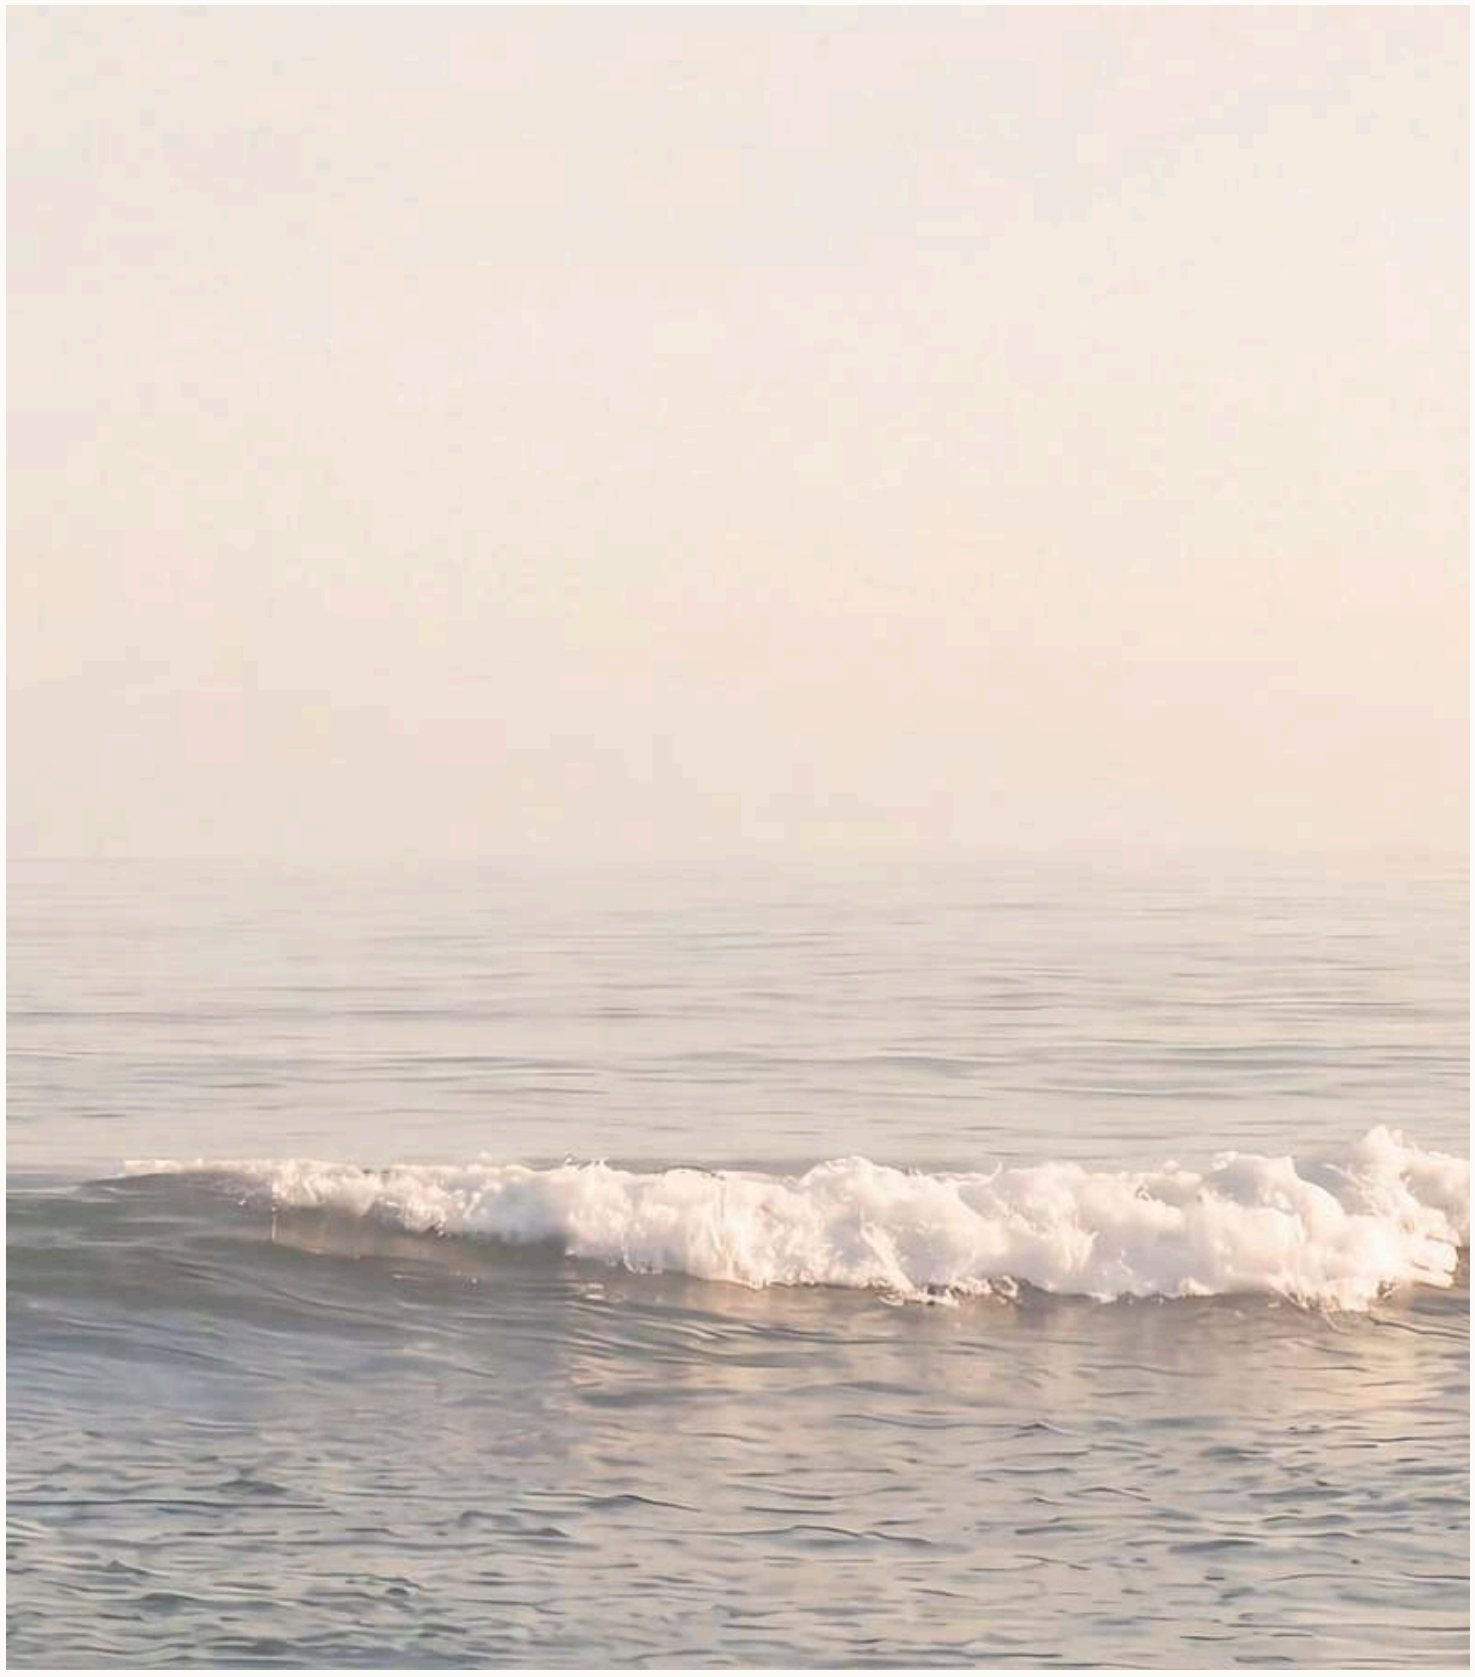

SPACE FOR MOVEMENT AND PAUSE

Days here can take many forms. Time to move, time to gather, time spent outdoors by the water, and time simply to feel at ease in familiar surroundings.

A considered collection of amenities for wellbeing, leisure and connection gives each day room to unfold in its own way.

AN ELEGANT ARRIVAL

Built form and planting work together to create a clear and considered sense of arrival. Layered landscaping frames the approach, while defined pathways guide residents naturally towards the entrance, creating a seamless transition into the building.

From the first step, there is a sense that the world beyond has been left just a little further behind.

LOBBY

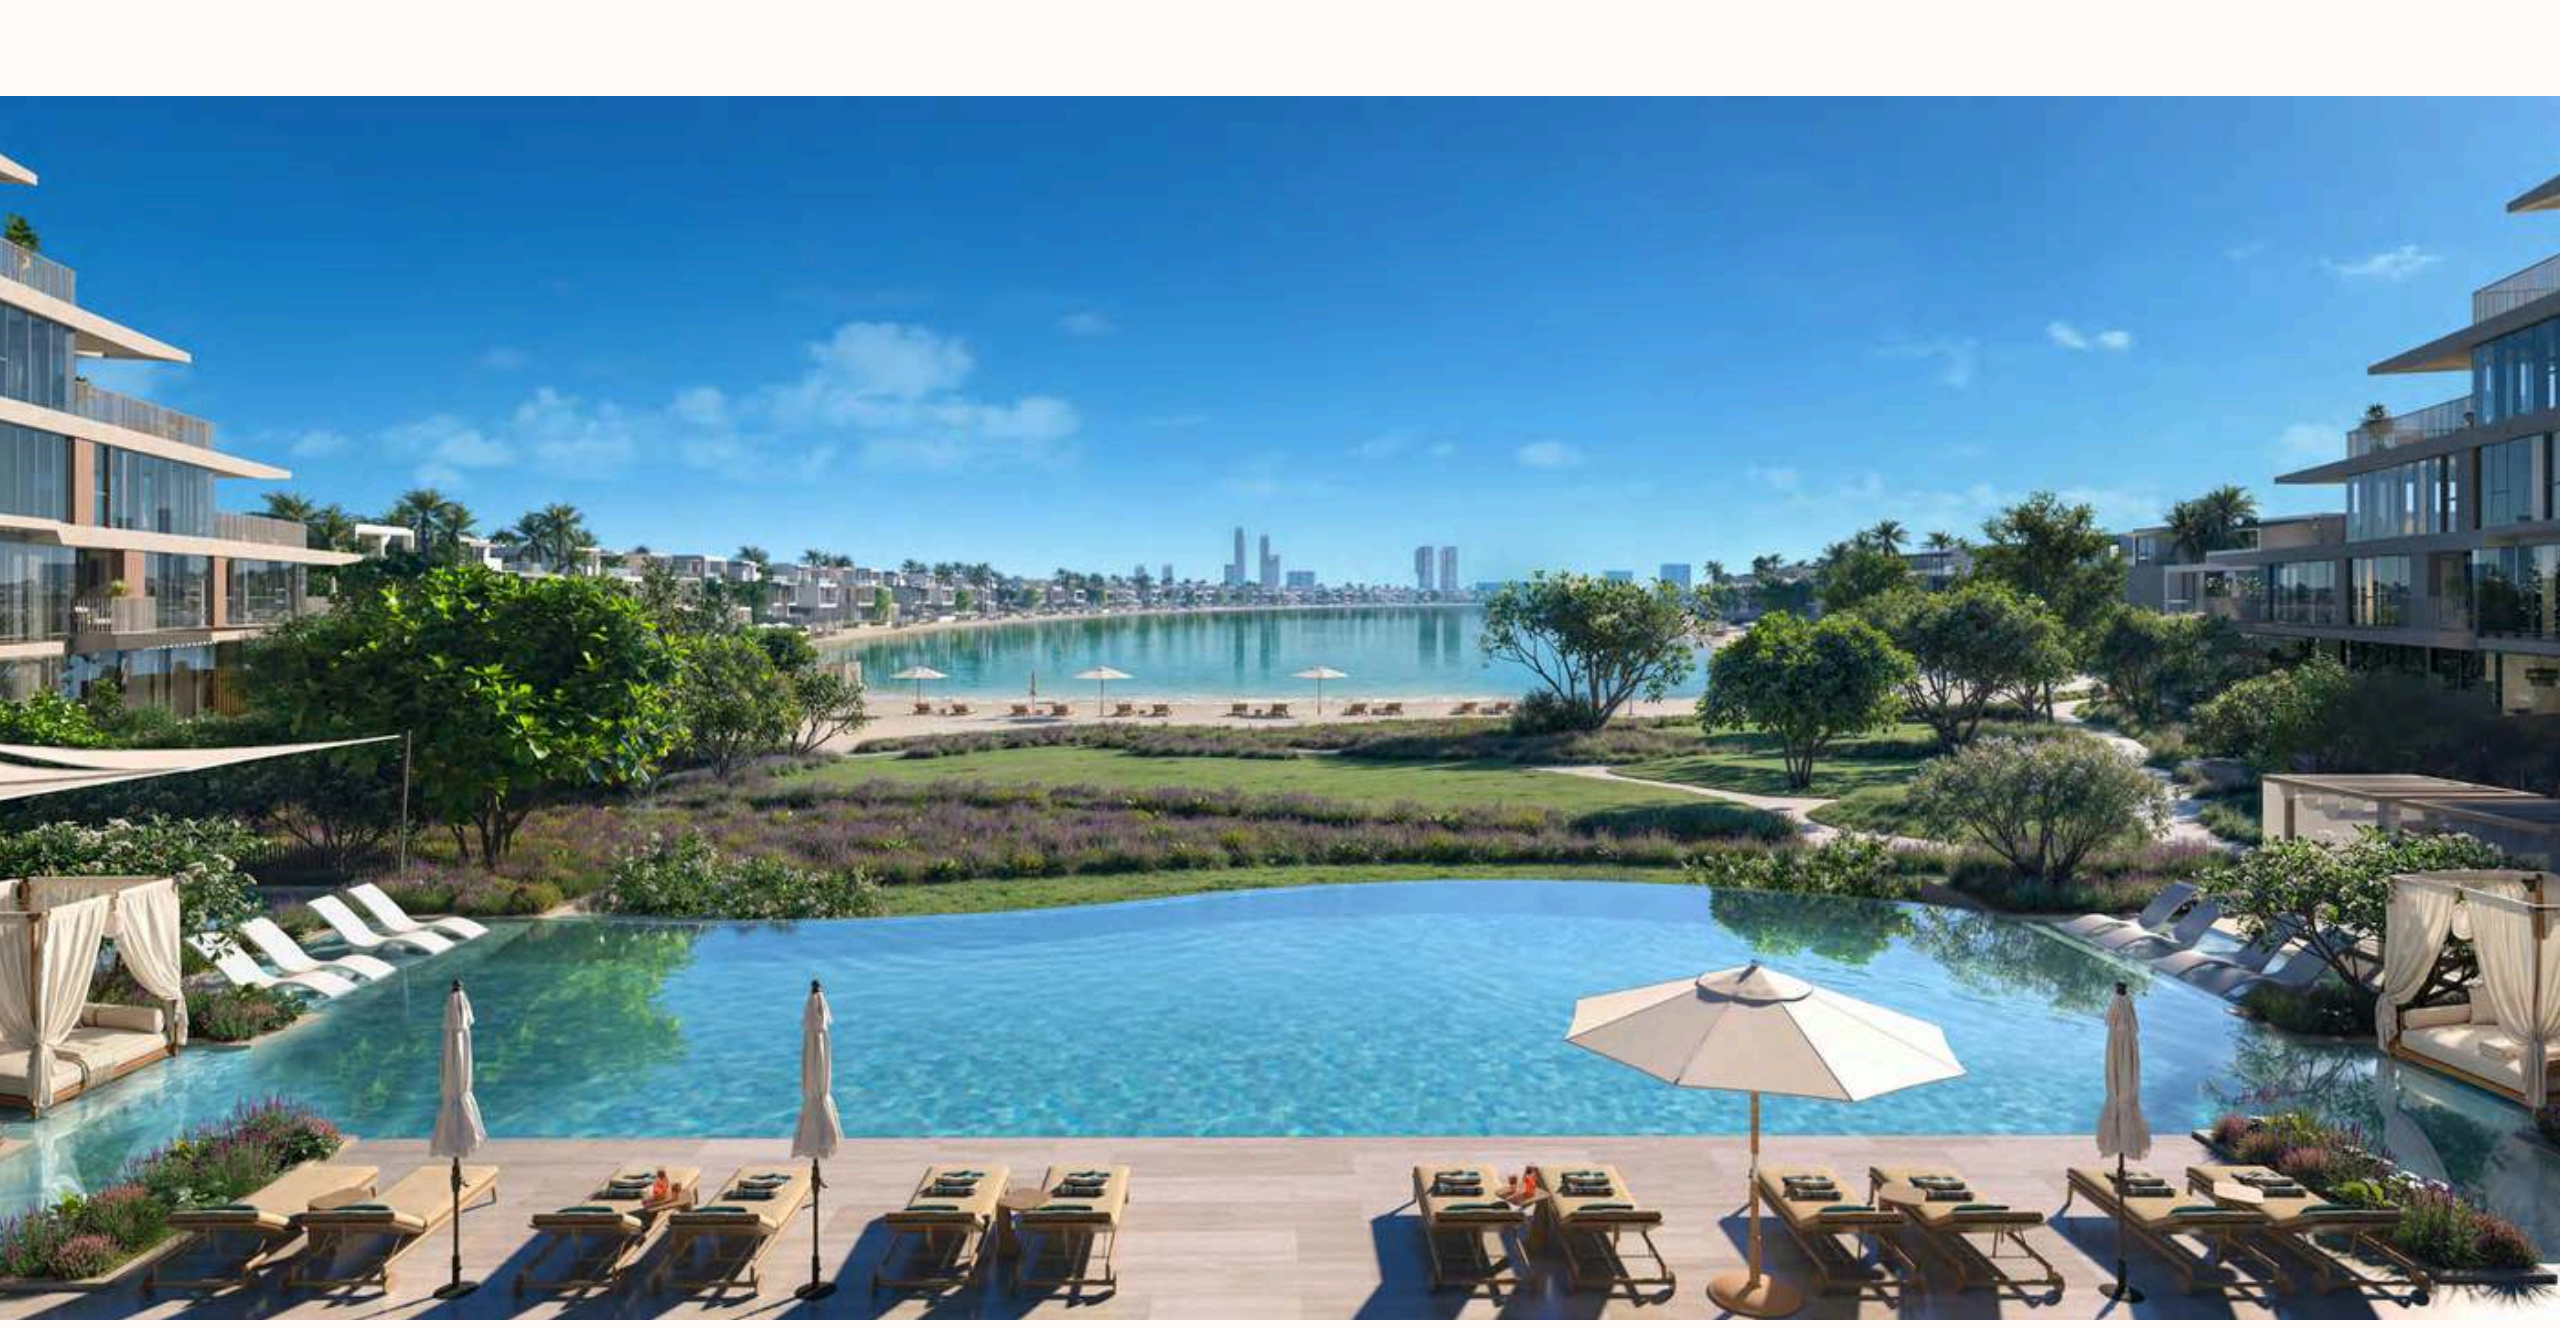

Inside, generous proportions are softened by warmth, texture and beautifully resolved details. Elegant without formality, the lobby includes thoughtfully appointed spaces that extend the experience beyond arrival: a place to pass through, linger for a while or simply enjoy being home.

Drawn with a quiet simplicity, the architecture feels naturally attuned to its surroundings.

Layered façades create depth and character, while generous terraces extend each home beyond its walls. Thoughtful proportions and carefully framed outlooks give the buildings a signature presence, quietly distinctive in expression and unmistakably coastal.

DRAWN TO THE SHORES

At Palm Central Private Residences, landscaped gardens flow towards the beach, bringing the shoreline into the everyday experience of home.

Residents can step from their private retreat onto soft sand, enjoying the natural rhythm of the shoreline or the glow of the horizon at dusk.

Rising in a series of graceful steps, the architecture opens each residence to a different perspective of the coast. Broad terraces define the upper levels, framing far-reaching views while preserving privacy. At ground level, townhouses extend naturally onto the landscaped deck and beach, bringing the shoreline closer to home.

ARCHITECTURE SHAPED BY LIGHT

Floor-to-ceiling glazing brings an abundance of daylight into each residence while framing uninterrupted views across the sea and skyline. The relationship between interior and exterior is carefully considered, giving every home greater openness and a direct connection to the coast.

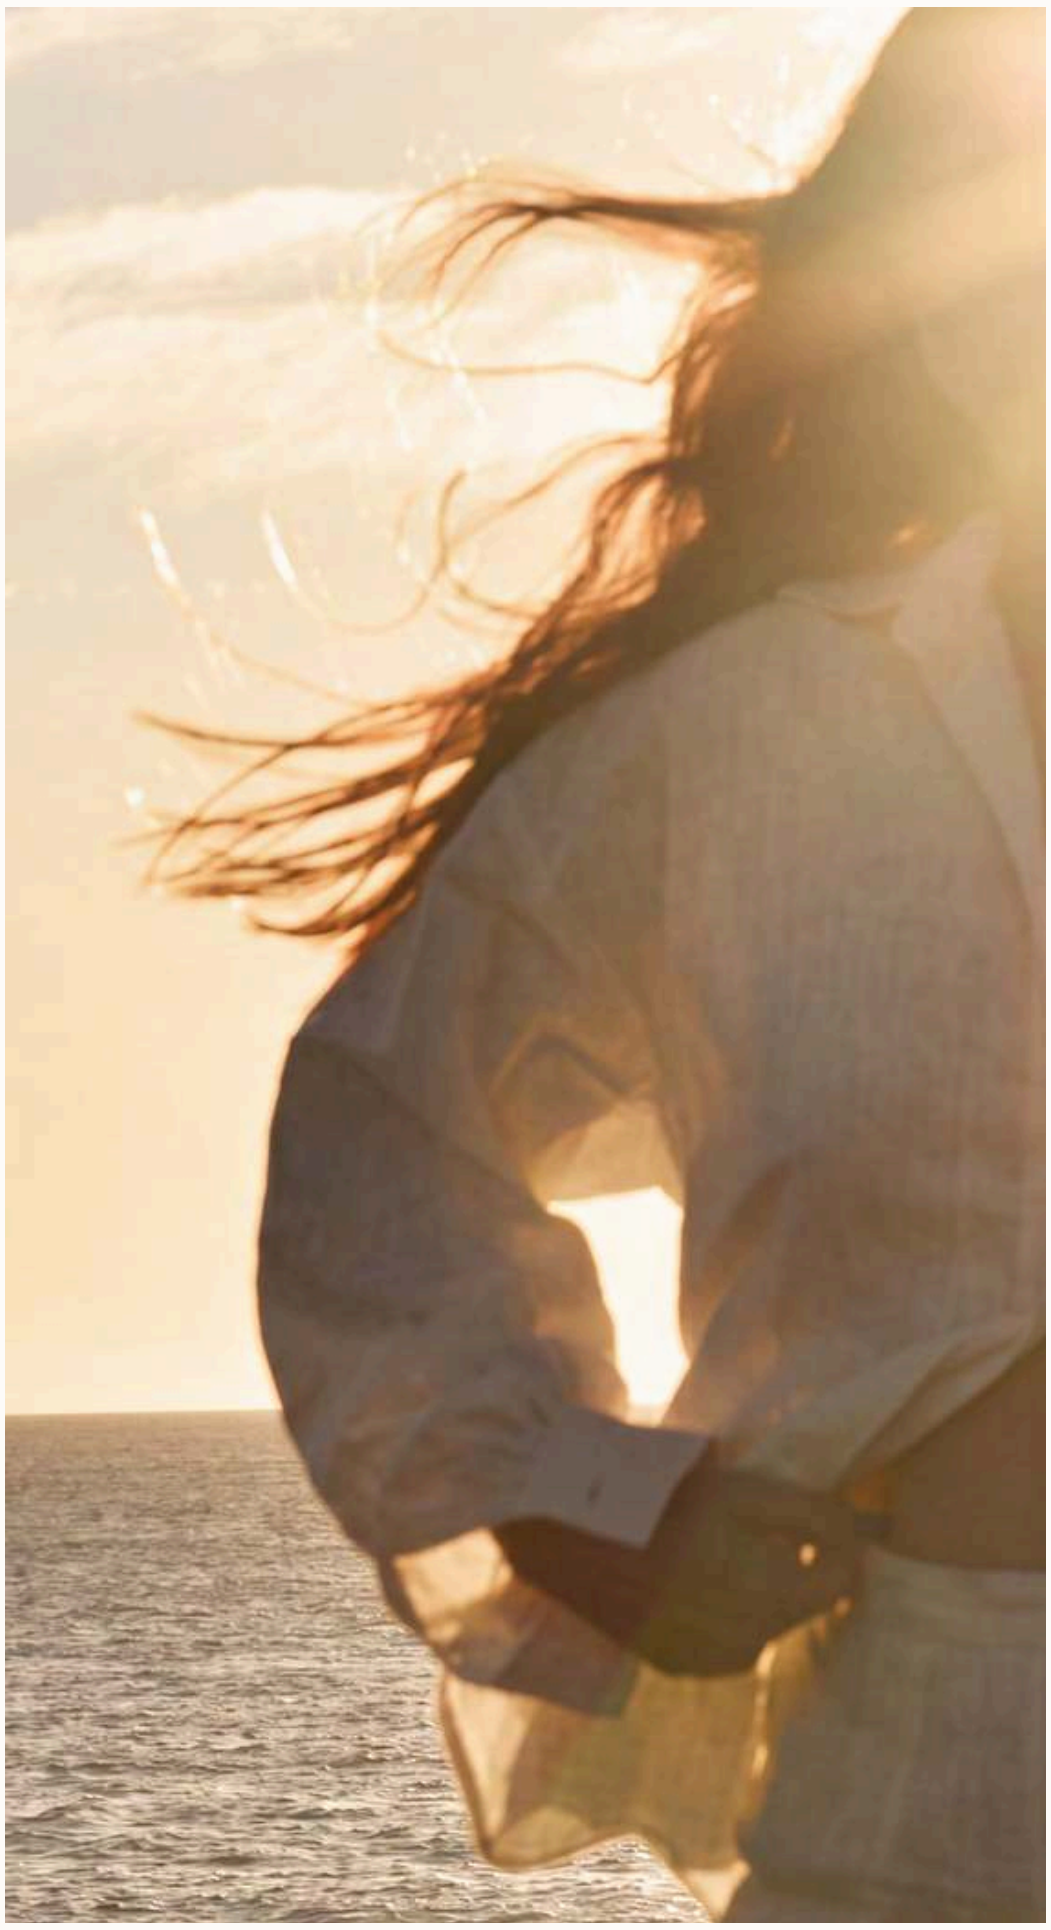

After dark, subtle illumination gives definition to the façade, revealing its form in a softer light and reflecting it across the water.

DESIGNED WITH RESTRAINT

There is a quiet confidence to the interiors. Natural tones, tactile materials and precise detailing come together in spaces that feel warm, refined and effortlessly composed.

Every element is balanced to create homes with an enduring elegance rather than one defined by passing trends.

RESIDENCES

Each residence is shaped around a natural sense of flow, with open living areas, intuitive planning and a seamless relationship between indoors and out.

Private terraces extend the home into the landscape, creating room for gathering, retreating or simply taking in the view.

Refined in expression. Effortless to live in.
